

AS IT IS

Some fellas need to jump off a cliff

Some are oblivious to the highest bliss

Some others need the speedin' up

'Cause they get bored no matter what they do

Some others like it as it used to be

Some people need to go "Tie me please"

Some others like to unleash the beast.....aahhh

Some just can't help being so square

So many love to keep and never share

Different pills for different thrills

Chorus:

Woohoo You know I dig my life as it is

Woohoo I'm gonna love my life as it is, as it is

Woohoo You know I dig my life as it is

Woohoo I'd rather face it just as it is , as it is

Some brothers kill their sisters' dreams

Too many women lack of self esteem

Some others need to have a cross to bear

Some just can't help but judge you and me

But we won't feed their tragedy
