

## **IT AIN'T WORTH IT**

**It ain' t worth it  
To worry about lifestyle,  
About the latest fashion,  
To worry about everything**

**It ain' t worth it  
To waste all your lifetime  
To get the greatest mansion,  
To live to own everything**

**I used to worry about everything  
It still haunts my mind now and then  
But then i laugh so hard at myself  
As i watch my cerebrations passin' by  
I used to think “ will my princess ever come? ”  
“ Will i have a flashy career ? ”  
Now I just wanna be the best me i can be  
I strive to be real**

**It ain' t worth it  
To worry about lifestyle,  
About the latest fashion,  
To worry about everything**

**It ain' t worth it  
To crawl after a cash pile  
To increase your shoes collection  
To live for those little things**

**When i walk down the street  
Finding myself wondering  
“What will i do, what will happen to me?”  
I just take a deep breath  
Pushin' that thought away i smile,  
And take the first turn i see  
' til i can choose i' m free**

**Repeat Chorus**
