

Secret Lover

**I could have told you this a long long time ago
But i've been waiting
You were so young and so much in love
With someone else**

**Now i just can't wait no more
I have to write this song and let you know**

**I've been knowing you since you were a child
A sweet little child
But then you grew up and turned out to be
Beauty made woman**

**Now i just can't wait no more
I have to write this song, i'd like to let you know
What you do to me when we're very near
A bright smile on my face erases every fear**

***'cause i saw you in my dream and you were
loving me
And it felt so nice and free, like wonderful reality
You freedom showed me how to be
Happy, alive and in harmony***

**Now i understand it might be a big surprise
And every time i look into your eyes
I try to see inside what they see in me
And hope some day this dream will be..**

**..reality, and i don't care no more
what your mom might say,
your sister your dad and so and so
No i just can't wait no more
I tell you with this song
I might just be in love with you, you know**

***'cause i saw you in my dream and you were
loving me
And it felt so nice and free, like wonderful reality
You freedom showed me how to be
Happy, alive and in harmony***
